OBJETIVO

Python Developer with experience in RPA, seeking opportunities to apply my skills in process automation and efficient solution development. Currently, I am also deepening my knowledge in COBOL and exploring the mainframe environment, with a strong interest in working in this field. I am looking for a position where I can contribute with my technical expertise, enhance my skills, and grow professionally in a challenging environment.

PROFESSIONAL EXPERIENCE

RPA Developer – April 2023 – July 2024

Company: Automate Brasil

- Developed and implemented RPA bots using Python and Automate to automate administrative processes.
- Provided maintenance and ongoing support for existing RPA systems.
- Tested and debugged bots to ensure functionality and automation efficiency.

Freelance Game Developer – August 2022 – Present

- Developed games using Construct 3.
- Integrated games with Bubble.io applications.

FORMAÇÃO

- Technology in Systems Analysis and Development - August 2022 - Present
- Mechanical Technology – Projects - July 2022
